Summary:

i don't see why this game got a lower score than the other Nintendogs . i fail to see the new flaws to it that make it worse . graphics: The graphics almost look lifelike, and the dog's body animations feel perfect . i don't think people should dock it points because it's the same game, i'm not sure why that's a bad thing, i'm sure it's a good game if not better .   .   .
